Information for potential partners

Centre of Strategic Partnership invites potential partners to participate in the GGC2 Competition 'good governance, accountable institutions, transparency and contributing to improved integrity and accountability of public administration' under the programme 'Good governance and Cross-border cooperation' with the support of EEA Grants 2014-2021.

We propose for implementation a project with the working name 'Cross-border cooperation in the format of the micro-region at the border of Slovakia and Ukraine within the borders of the International Biosphere Reserve 'Eastern Carpathians'.

Our organization has a successful experience in the implementation of three projects of the previous competition of the programme 'Good governance and Cross-border cooperation' with the support of EEA Grants 2014-2021:

1. Project CBC 01014 «**Sharing European integration know-how and CBC experience between Norway and Russia with Ukraine (SURECII)**» - a leading financial partner on the Ukrainian side.
2. Project CBC 01017 «**Improvement of technical and educational capacities to accelerate the handling process of the joint Slovakia-Ukraine border**» - the only financial partner from the Ukrainian side.
3. Project CBC 01018 «**Sharing know-how for better management of the Schengen Border between Slovakia / Ukraine and Norway / Russia**» - non-financial partner from the Ukrainian side.

We hope for successful cooperation!

President of the Centre
of Strategic Partnership

Andriy Kryzhevskyy
